

Cambridge PPI Showcase

Research talks and posters about Patient and Public Involvement for staff and members of the public

TIME	AGENDA
10:00	Opening remarks and celebrating the impact of the Cambridge University Hospital PPI Panel Dr. Amanda Stranks, PPI and Comms Lead for NIHR Cambridge BRC
10:15	Use of PPI in implementing the study 'Investigating gut hormones in human health and disease' Christopher Bannon, Institute of Metabolic Science
10:30	Accessing pelvic health services with under-served communities Claire Brown and Dr. Caroline Zwierzchowska-Dod, Cambridge University Hospitals
10:45	Patient and Public Involvement in the Personalised Breast Cancer Program (PBCP) Joanna Worley, Precision Breast Cancer Institute, CRUK Cambridge Centre
11:00	Co-designing an inclusive breathlessness intervention: Patient and Public Involvement in PrimaryBreathe Maria Goodall and Dr Sarah Hoare, DHSC
11:15	HOPE: Hyperemesis gravidarum Opinions on PrevEntion Sam Lockhart, The Wellcome Trust- MRC Institute of Metabolic Science
11:30	Detecting signs of awareness in children and young people with disorders of consciousness Dr. Jonathan Pool, Anglia Ruskin University
11:45	Co-creation process of a wellness & resiliency program for cancer centre staff Prof. Annie Heiderscheit and Prof. Nancy Jackson, Anglia Ruskin University
12:00	Refreshment break: Poster exhibition and light lunch - Atrium (Cafeteria area)
13:05	Genetic Destinies - involving patients and the public in complex conversations about genetic risk using theatre Dr. Amy Mason, Cardiovascular Epidemiology Unit, UoC
13:20	The POPPY study: A PPI and Public Engagement journey towards unmet needs in women's long-term health Ewa Czekaj, University of Cambridge
13:35	Facilitating Patient-led research through the community-led Rare Disease Research Network (RDRN) Dr. Rona Smith, Cambridge University Hospitals and RDRN
13:50	Identifying public priorities for technology, data, and Artificial Intelligence (AI) in healthcare and research Dr. Lekaashree Rambabu, IHSG, Department of Engineering, UoC
14:05	Can an 'earable' give meaningful information to patients and clinicians about their balance, gait and risk of falls? Henry Dunne, ENT Department, Cambridge University Hospitals
14:20	SWIM: Supporting Weight Management through working with a diverse group of people with lived experience of overweight or obesity Dr. Amy Ahern, University of Cambridge
14:35	Enhancing Clarity and Accessibility of Patient Information Sheets through Patient, Public and Professional Involvement: A model of improvement approach Maria Jesus Zamora Morales and Dr Marta Mylot, UoC

Cambridge PPI Showcase

Research Poster Display - VOTE for your favourite poster!

The posters on display in the Atrium (Cafeteria area) are examples of how Patient and Public Involvement has helped improve research in Cambridge. Please take a few minutes to walk around the displays and chat to the researchers on hand. You will be given a voting slip to vote for your favourite one! (Please remember to drop your vote in the box on the reception desk.)

LETTER	POSTER
A	Future flight challenge: using drones to help build resilience in UK medical supply chains and help connect patients with healthcare services more quickly <i>Dr. Shabnam Sadeghi Esfahlani</i>
B	Involvement of older people in research <i>Dr. Bryony Porter</i>
C	You, Me & Us: a collaborative neuroblastoma poetry project <i>Dr. Kirsty Ferguson</i>
D	What encourages/'puts off' young people from participating in school-based health research? <i>Lauren Cross</i>
E	Neonatal intensive care; with stakeholders developing a digital support tool for families to help navigate their baby's journey from birth to discharge. <i>Dr. Topun Austin</i>
F	POPS2 Patient and Public Involvement (PII): Avoiding tokenism and gathering meaningful feedback to shape research delivery <i>Ellen Dyer</i>
G	From Patients to Partners; using insights from patient engagement to drive patient and public involvement. <i>Claire Glemas</i>
H	What is Patient & Public Involvement in Research? Public Involvement in Research Papworth – Patient Research Ambassadors Activity 2022-23 <i>Royal Papworth Hospital Patient Research Ambassadors</i>
I	Equality Diversity and Inclusion in research participation at NIHR Cambridge Clinical Research Facility <i>Caroline McMahon</i>
J	Early Cancer Detection: Patient and Public Involvement in Study Set-Up and Ensuring Diversity in Recruitment to the ACED Cohort <i>Christine Loreno</i>
K	Growth of Patient Experience and care in the Heart and Lung Research Institute Clinical Research Facility <i>Frances Overton</i>
L	The use of PPIE to development virtual reality intervention for cochlear implant users <i>Dr. Bhavisha Parmar</i>
M	Using PPIE to understand patient priorities about the risk of developing early shoulder arthritis after dislocations <i>Dr. Salma Chaudbury</i>
